MANAGEMENT INFORMATION CIRCULAR

SOLICITATION OF PROXIES AND VOTING INSTRUCTIONS

This management information circular (the "**Circular**") is furnished in connection with the solicitation of proxies by the management of Fission Uranium Corp. (the "**Company**" or "**Fission**") for use at the annual meeting of the Company to be held on June 30, 2020 and at any adjournments thereof (the "**Meeting**"). The solicitation will be conducted by mail and may be supplemented by telephone or other personal contact to be made without special compensation by officers and employees of the Company. All costs of the solicitation for the Meeting will be borne by Fission. Unless otherwise specified, the information contained in this Circular is current as of May 19, 2020.

Appointment of Proxyholder

The persons designated by management of the Company in the enclosed form of proxy are directors or officers of the Company. **Each registered shareholder of the Company (the "Registered Shareholders") has the right to appoint as proxyholder a person or company (who need not be a shareholder of the Company) other than the persons designated by management of the Company in the enclosed form of proxy to attend and act on the shareholder's behalf at the Meeting or at any adjournment thereof.** Such right may be exercised by inserting the name of the person or company in the blank space provided in the enclosed form of proxy or by completing another form of proxy.

In the case of Registered Shareholders, the completed, dated and signed form of proxy must be received by Computershare Investor Services Inc. ("**Computershare**"), at its office at 8th Floor, 100 University Avenue, Toronto, Ontario, M5J 2Y1, or by fax number 1-866-249-7775, or by international fax number 1-416-263-9394. To be effective, a proxy must be received by Computershare not later than June 26, 2020 at 10:00 A.M. (Pacific time) or 1:00 P.M. (Eastern time), or in the case of any adjournment of the Meeting, at least 48 hours (excluding Saturdays, Sundays and holidays), prior to the time of the adjournment. The time limit for deposit of proxies may be waived or extended by the chairman of the Meeting at his discretion, without notice.

Revocation of Proxy

A shareholder who has given a proxy may revoke it by depositing an instrument or act in writing signed by the shareholder or by the shareholder's personal representative, who is authorized in writing, at the registered office of the Company at 700 – 1620 Dickson Avenue, Kelowna, BC, V1Y 9Y2 at any time up to and including the last business day preceding the day of the Meeting, or in the case of any adjournment of the Meeting, the last business day preceding the day of the adjournment, or with the chairman of the Meeting on the day of, and prior to the start of, the Meeting or any adjournment thereof. A shareholder may also revoke a proxy in any other manner permitted by law.

Voting of Proxies

On any ballot that may be called for, the common shares of the Company (the "**Shares**") represented by a properly executed proxy given in favour of the persons designated by management of the Company in the enclosed form of proxy will be voted or withheld from voting in accordance with the instructions given on the form of proxy, and if the shareholder specifies a choice with respect to any matter to be acted upon, the Shares will be voted accordingly.

The enclosed form of proxy confers discretionary authority upon the persons named therein with respect to amendments or variations to matters identified in the accompanying Notice of Meeting and with respect to other matters which may properly come before the Meeting or any adjournment thereof. As of the date of this Circular, management of the Company is not aware of any such amendment, variation or other matter to come before the Meeting. However, if any amendments or variations to matters identified in the accompanying Notice of Meeting or any other matters which are not now known to management should properly come before the Meeting or any adjournment thereof, the Shares represented by properly

executed proxies given in favour of the persons designated by management of the Company in the enclosed form of proxy will be voted on such matters pursuant to such discretionary authority. If a shareholder specifies a choice with respect to any matter to be acted upon, the Shares will be voted accordingly; however, if such discretion is not made in respect of any matter, the form of proxy will be voted as recommended by management.

Voting Instructions for Non-Registered Shareholders

Only Registered Shareholders or duly appointed proxyholders are permitted to vote at the Meeting. Most shareholders of the Company are non-registered shareholders because the Shares they own are not registered in their names but are instead registered in the name of the brokerage firm, bank or trust company through which they purchased the Shares.

A holder of Shares is a non-registered (or beneficial) shareholder (a "**Non-Registered Shareholder**") if the shareholder's Shares are registered either: (a) in the name of an intermediary (an "**Intermediary**") that the Non-Registered Shareholder deals with in respect of the Shares, such as, among others, banks, trust companies, securities dealers or brokers and trustees or administrators of self-administered RRSPs, RRIFs, RESPs, RDSPs, TFSA's and similar plans; or (b) in the name of a clearing agency (such as CDS & Co.) of which the Intermediary is a participant.

Non-Registered Shareholders who have not objected to their Intermediary disclosing certain ownership information about them to the Company are referred to as non-objecting beneficial owners ("**NOBOs**"). Those Non-Registered Shareholders who have objected to their Intermediary disclosing ownership information about them to the Company are referred to as objecting beneficial owners ("**OBOs**"). In accordance with the requirements of National Instrument 54-101 – *Communication with Beneficial Owners of Securities of a Reporting Issuer* ("**NI 54-101**"), the Company has elected to send copies of the proxy-related materials, including a voting instruction form ("**VIF**") (collectively, the "**Meeting Materials**") directly to the Canadian NOBOs and indirectly through Intermediaries for onward distribution to the OBOs and NOBOs in the United States. The Company will also pay the fees and costs of Intermediaries for their services in delivering the Meeting Materials to OBOs in accordance with NI 54-101. Intermediaries must forward the Meeting Materials to each OBO or Non-Registered Shareholders in the United States (unless such shareholder has waived the right to receive such materials), and often use a service company (such as Broadridge Investor Communication Solutions), to permit such shareholder to direct the voting of the Shares held by the Intermediary on behalf of such shareholder. Generally, Non-Registered Shareholders who have not waived the right to receive meeting materials will be given a VIF which must be completed and signed by the Non-Registered Shareholder in accordance with the directions on the VIF. Non-Registered Shareholders should submit VIFs in sufficient time to ensure that their votes are received by the Company.

The purpose of these procedures is to permit Non-Registered Shareholders to direct the voting of the Shares they beneficially own. Should a Non-Registered Shareholder who receives a VIF wish to attend and vote at the Meeting in person (or have another person attend and vote on behalf of the Non-Registered Shareholder), the Non-Registered Shareholder should insert their own (or such other person's) name in the blank space provided in the VIF. Non-Registered Shareholders should ensure they follow the corresponding instructions on the VIF, to appoint themselves as proxyholders, and submit the VIF in the appropriate manner noted above. **Non-Registered Shareholders should carefully follow the instructions on the VIF. Non-Registered Shareholders should ensure that instructions respecting the voting of their Shares are communicated to the appropriate persons, as required.**

These Meeting Materials are being sent to both Registered Shareholders and Non-Registered Shareholders. If you are a Non-Registered Shareholder, and the Company or its agent has sent these Meeting Materials directly to you, your name and address and information about your holdings of securities, have been obtained in accordance with applicable securities regulatory requirements from the Intermediary holding Shares on your behalf. By choosing to send these materials to you directly, the Company (and not the Intermediary holding Shares on your behalf) has assumed responsibility for (i) delivering these materials to you, and (ii) executing your proper voting instructions. Please return your voting instructions as specified in the request for voting instructions.

Votes Necessary to Pass Resolutions

A simple majority of affirmative votes cast at the Meeting is required to pass each of the resolutions described herein, other than the Share Consolidation Resolution (as defined herein), which must be passed by two-thirds of affirmative votes cast at the Meeting. If there are more nominees for election as directors or appointment of the Company's auditor than there are vacancies to fill, the nominees receiving the greatest number of votes will be elected or appointed, as the case may be, until all such vacancies have been filled. If the number of nominees for election or appointment is equal to the number of vacancies to be filled, all such nominees will be declared elected or appointed as directors by ballot in accordance with the Company's majority voting policy.

VOTING SHARES AND PRINCIPAL HOLDERS THEREOF

The authorized voting share capital of Fission consists of an unlimited number of common shares. Each holder of Shares is entitled to one vote for each Share registered in his or her name held at the close of business on May 19, 2020, the date fixed by the directors as the record date for determining who is entitled to receive notice of and to vote at the Meeting.

At the close of business on May 19, 2020, there were 486,950,740 Shares outstanding. To the knowledge of the directors and executive officers of the Company, no one person or entity beneficially owns or exercises direction or control over, directly or indirectly, more than 10% of the Shares, except the following:

Shareholder Name	Number of Shares Held	Percentage of Issued and Outstanding Shares
CGN Mining Company Limited ("CGN Mining")	96,736,540	19.87%

INTEREST OF CERTAIN PERSONS IN MATTERS TO BE ACTED UPON

Other than as disclosed elsewhere in this Circular, none of the directors or executive officers of the Company, no proposed nominee for election as a director of the Company, none of the persons who have been directors or executive officers of the Company since the commencement of the Company's last completed financial year and no associate or affiliate of any of the foregoing persons has any material interest, direct or indirect, by way of beneficial ownership of securities or otherwise, in any matter to be acted upon at the Meeting.

PARTICULARS OF MATTERS TO BE ACTED UPON

Election of Directors

The directors of the Company are elected at each annual meeting and hold office until the next annual meeting or until their successors are appointed. In the absence of instructions to the contrary, the person(s) designated by management of the Company in the enclosed form of proxy intend to vote FOR the election of the below named nominees as directors.

Pursuant to a subscription agreement between Fission and CGN Mining dated January 11, 2016 (the "**Subscription Agreement**"), CGN Mining acquired an aggregate of 96,736,540 Shares of Fission at a price of C\$0.85 per Share for a total subscription price of C\$82,226,059. In addition, Fission and CGN Mining also entered into an offtake agreement pursuant to which CGN Mining will purchase 20% of annual U₃O₈ production and will have an option to purchase up to an additional 15% of U₃O₈ production from the Company's Patterson Lake South Property, after commencement of commercial production.

The Subscription Agreement provides that for so long as CGN Mining and their affiliates hold not less than 17% of the Company's issued and outstanding shares for any continuous period of at least 24 months, CGN Mining is entitled to nominate two individuals to the board of directors of the Company (the "**Board**") in addition to certain anti-dilution rights for future equity financing of the Company. CGN Mining has nominated He Fei and Mr. Shiming Ma for election to the Board.

Majority Voting Policy

The Board has adopted a majority voting policy (the “**Policy**”). Pursuant to the Policy, shareholders vote for the election of individual directors at each annual meeting of shareholders, rather than for a fixed slate of directors. Further, in an uncontested election of directors at an annual meeting of shareholders, the votes cast in favour of the election of a director nominee must exceed the number of shares withheld for the election of the director. If that is not the case, that director must tender his or her resignation to the Chairman of the Board immediately. The Nominating and Corporate Governance Committee (“**NCGC**”) will promptly consider such tendered resignation and recommend to the Board the action to be taken with respect to such tendered resignation. In making its recommendation, the NCGC will consider the reason why the votes were withheld, the skills and expertise of that director, the overall composition of the Board and the skills and the expertise of the other directors. Thereafter, the Board must decide whether to accept such resignation and it must promptly disclose its decision via press release. The Board shall accept the resignation absent exceptional circumstances. If the Board determines not to accept a resignation, the news release must fully state the reasons for that decision. A resignation will not be effective until it is accepted by the Board. An “uncontested election” means an election where the number of nominees for director is not greater than the number of directors to be elected.

Director Nominees

The following table sets out the names of the persons to be nominated for election as directors, the positions and offices which they presently hold with the Company, their respective principal occupations or employments during the past five years if such nominee is not presently an elected director and the number of shares of the Company which each beneficially owns, directly or indirectly, or over which control or direction is exercised as of the date of this Circular.

- (a) was subject to:
 - (i) a cease trade order (including any management cease trade order which applied to directors or executive officers of a company, whether or not the person is named in the order), or
 - (ii) an order similar to a cease trade order, or
 - (iii) an order that denied the relevant company access to any exemption under securities legislation, that was in effect for a period of more than 30 consecutive days (an “**Order**”); or
- (b) was subject to an Order that was issued after the director or executive officer ceased to be a director, chief executive officer or chief financial officer and which resulted from an event that occurred while that person was acting in the capacity as director, chief executive officer or chief financial officer.

Bankruptcy

To the knowledge of Fission, as at the date of the Circular no proposed director nominee is, or within the ten years prior to the date of the Circular has:

- (a) been a director or executive officer of any company (including Fission) that, while that person was acting in that capacity, or within a year of that person ceasing to act in that capacity, became bankrupt, made a proposal under any legislation relating to bankruptcy or insolvency or was subject to or instituted any proceedings, arrangement or compromise with creditors or had a receiver, receiver manager or trustee appointed to hold its assets; or
- (b) become bankrupt, made a proposal under any legislation relating to bankruptcy or insolvency, or become subject to or instituted any proceedings, arrangement or compromise with creditors, or had a receiver manager or trustee appointed to hold the assets of the director.

- (a) any penalties or sanctions imposed by a court relating to securities legislation or by a securities regulatory authority or has entered into a settlement agreement with a securities regulatory authority; or
- (b) any other penalties or sanctions imposed by a court or regulatory body that would likely be considered important to a reasonable securityholder in deciding whether to vote for a proposed director.

Appointment of Auditor

Unless otherwise instructed, the proxies given pursuant to this solicitation will be voted for the appointment of PricewaterhouseCoopers LLP, Chartered Professional Accountants, of Vancouver, British

Columbia, as auditor of the Company to hold office until the close of the next annual meeting of the Company. PricewaterhouseCoopers, LLP were first appointed auditors of the Company on July 23, 2013.

Approval of Common Share Consolidation

At the Meeting, shareholders will be asked to consider, and if thought fit, to pass with or without amendment, a special resolution set forth below (the "**Share Consolidation Resolution**") to amend its articles to effect a consolidation (the "**Consolidation**") of the issued and outstanding Shares on a basis of up to 10 pre-Consolidation Shares being consolidated into one post-Consolidation Share, or such lesser number of pre-Consolidation Shares as may be accepted by the TSX and approved by the Board, in its sole discretion. Approval of the Share Consolidation Resolution does not necessarily mean that the Board will implement the Consolidation. Even if the Share Consolidation Resolution is approved by shareholders at the Meeting, and accepted by the TSX, the Board will have the discretion not to proceed with the Consolidation.

In connection with the Consolidation, each stock option, warrant or other security of the Company convertible into pre-Consolidation Shares that has not been exercised or cancelled prior to the effective date of the implementation of the Consolidation will be adjusted pursuant to the terms thereof. The outstanding options will be adjusted at the same Consolidation ratio.

As at the date hereof, a total 486,950,740 Shares in the capital of the Company were issued and outstanding. Accordingly, if the Consolidation is put into effect on the basis of the maximum authorized ratio of 10 pre-Consolidation Shares for every one post-Consolidation Share, a total of approximately 48,695,074 Shares in the capital of the Company would be issued and outstanding following the Consolidation, assuming no other changes to the issued capital.

Purpose of the Consolidation

The Board believes the Consolidation to be in the best interest of the Company because it believes that the Consolidation is necessary for the flexibility to list its shares on a US exchange.

Procedure

In the event the Consolidation is approved by the shareholders, accepted by the TSX, and implemented by the Board, the registered holders of Shares will be required to exchange the certificates representing their pre-Consolidation Shares for new certificates representing post-Consolidation Shares. Following the determination of the Consolidation ratio by the Board, and as soon as possible following the effective date of the Consolidation, the registered holders of Shares of the Company will be sent a transmittal letter by the Company's transfer agent, Computershare. The letter of transmittal will contain instructions on how to surrender Share certificate(s) representing pre-Consolidation Shares to the transfer agent. The transfer agent will forward to each registered shareholder who has sent the required documents a new Share certificate representing the number of post-Consolidation Shares to which the shareholder is entitled.

Shareholders will not have to pay a transfer or other fee in connection with the exchange of certificates. Shareholders should not submit certificates for exchange until required to do so. Until surrendered, each certificate formerly representing the Shares will be deemed for all purposes to represent the number of Shares to which the holder thereof is entitled as a result of the Consolidation.

Other Considerations

The Consolidation will not materially affect the percentage ownership in the Company by shareholders even though such ownership will be represented by a lesser number of Shares. The Consolidation will proportionately reduce the number of Shares held by all the shareholders.

There are numerous factors and contingencies that could affect the price of the Shares, including the status of the market for the Shares at the time, the Company's operations and general economic, stock market and industry conditions.

Accordingly, the total market capitalization of the Shares after the Consolidation may be lower than the total market capitalization before the Consolidation, and, in the future, the market price of the post-Consolidation Shares may not exceed or remain higher than the market price prior to the Consolidation. As a result, the marketability and trading liquidity of the post-Consolidation Shares of the Company may not improve. The Consolidation may result in some shareholders owning "odd lots" of Shares which may be more difficult for such shareholders to sell or which may require greater transaction costs per share to sell. If the Consolidation is implemented and the market price of the Shares declines, the percentage decline may be greater than would occur in the absence of the Consolidation. The market price of the Shares will, however, also be influenced by the Company's performance and other factors, which are unrelated to the number of Shares outstanding.

No fractional Shares will be issued pursuant to the Consolidation. In the event that a shareholder would otherwise be entitled to a fractional Share hereunder, hereunder, the number of Shares issued to such shareholder shall, without any additional compensation, be rounded down to the next lesser whole number of Shares.

Share Consolidation Resolution

Pursuant to the *Canada Business Corporations Act*, the Company's constating documents, and the requirements of the TSX, the Share Consolidation Resolution must be passed by two-thirds of the votes cast by shareholders present in person and represented by proxy at the Meeting. In the event that the Share Consolidation Resolution is not passed by a special resolution, the Company will not proceed with the Consolidation. The Consolidation is also subject to the approval of the TSX.

Management unanimously recommends that you vote "for" in respect of the Share Consolidation Resolution.

"BE IT RESOLVED AS A SPECIAL RESOLUTION THAT:

1. the articles of the Company be amended to provide that the authorized share structure of Fission Uranium Corp. (the "Company") may be altered by consolidating all of the issued and outstanding common shares of the Company on the basis to be selected by the Company's board of directors, in its absolute discretion, provided that the consolidation shall be no greater than 10 pre-consolidation common shares for every one post-consolidation common share; and
2. no fractional common shares shall be issued in connection with the Consolidation. EXECUTIVE COMPENSATION

Named Executive Officers

For the purposes of this Circular, a Named Executive Officer ("**NEO**") of the Company means each of the following individuals:

- (a) the Chief Executive Officer of the Company (“**CEO**”);
- (b) the Chief Financial Officer of the Company (“**CFO**”);
- (c) the three most highly compensated executive officers of the Company or the three most highly compensated individuals acting in a similar capacity, other than the CEO and CFO, at the end of, or during, the fiscal year ended December 31, 2019, whose total compensation was individually, more than \$150,000 for the fiscal year ended December 31, 2019; and
- (d) each individual who would be an NEO under paragraph (c) but for the fact that the individual was neither an executive officer, nor acting in a similar capacity, at December 31, 2019.

The NEOs of the Company for the fiscal year ended December 31, 2019 are: Devinder Randhawa, CEO and Chairman; Ross McElroy, President and Chief Operating Officer (“**COO**”); Paul Charlish, CFO and Corporate Secretary; Raymond Ashley, VP Exploration; and Antonio Gonzales, Senior Project Manager.

Compensation Discussion and Analysis

This Compensation Discussion and Analysis describes and explains the significant elements of the Company’s executive compensation program implemented in the Company’s fiscal year ended December 31, 2019. The success of the Company depends on the talent and efforts of its employees and the leadership and performance of its executives. The Company believes that it is in the shareholders’ interest that the compensation program is structured in a manner that makes the attraction, retention and motivation of the highest quality employees a reality.

Fission has established a compensation committee (the “**Compensation Committee**”) to ensure that the Company has appropriate procedures for setting executive compensation. The Compensation Committee ensures that total compensation paid to each of the executive officers is fair and reasonable and is consistent with the Company’s compensation philosophy.

The Compensation Committee is also responsible for recommending compensation for the directors and granting stock options to the directors, officers and employees of, and consultants to, the Company pursuant to the Stock Option Plan, in such amounts and upon such terms as may be recommended by the Compensation Committee and approved by the Board from time to time.

The Company’s executive compensation program and strategy is designed to (i) be competitive in order to help attract and retain the talent needed to lead and grow the Company’s business, (ii) provide a strong incentive for executives and key employees to work toward achievement of the Company’s goals and strategic objectives and (iii) ensure that the interests of management and shareholders of the Company are aligned.

Compensation for the Company’s executive officers is intended to reflect a fair evaluation of overall performance and is intended to be competitive in aggregate with levels of compensation of comparable public issuers. The Company’s annual compensation program for the NEOs consists of two key components, base salary and long-term incentives. The Company’s executive compensation policy does not include specific performance goals or similar conditions that are based on objective, identifiable measures. Rather, compensation is based on, and informed by, the performance of Fission and the NEO’s contribution to that performance, as well as the personal performance of the NEO.

The Company generally strives to use long term incentives, such as the grant of stock options, as performance incentives for executive management and to increase the alignment of interests between employees, executive management and shareholders. Executive officers and directors are eligible to be granted stock options under the Stock Option Plan. The Stock Option Plan is intended to provide long term rewards linked directly to the market value of the Shares. The Board is of the view that the Stock Option Plan is in the best interests of the Company and will assist the Company to attract, motivate and retain talented and capable board members and executive management.

The Company does not have a pension plan benefit program or a non-equity incentive plan compensation in place. Therefore, there were no payments or benefits in connection with a defined benefit or a defined contribution plan and no annual incentive plan or long-term incentive plan awards offered to the NEOs during the Company's fiscal year ended December 31, 2019.

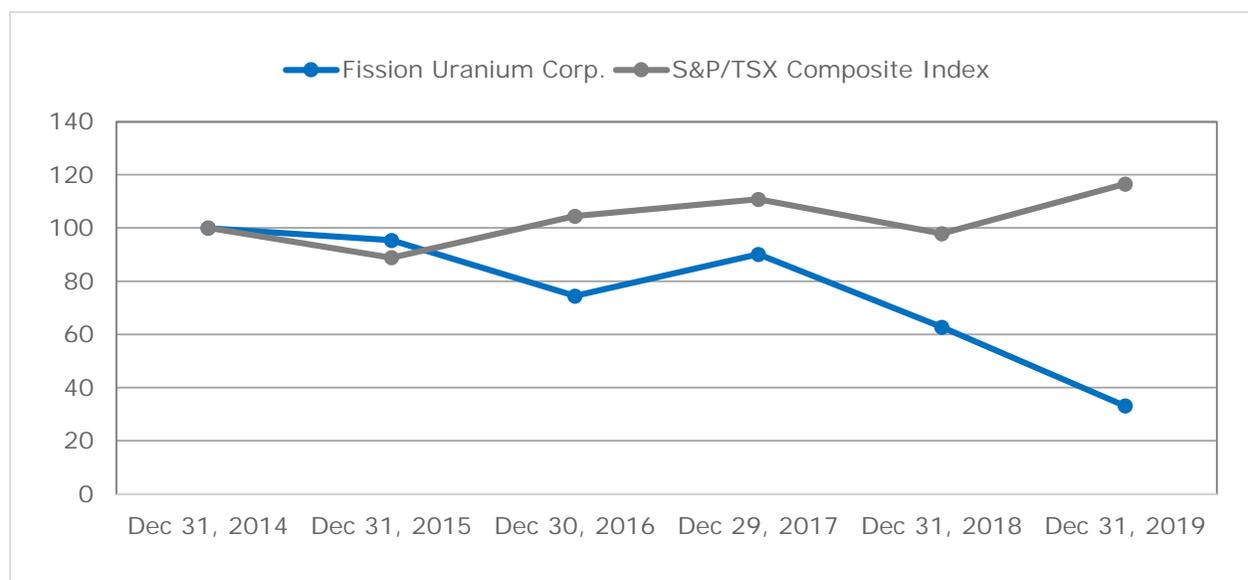

The Board has overall responsibility for the oversight of the Company's risk management, including in relation to all aspects of compensation. In this regard, the Board oversees the Company's compensation programs to ensure they do not encourage individuals to take inappropriate or excessive risks that could have a materially adverse effect on the Company. The Board, together with the Compensation Committee, considered the compensation programs of the Company to ensure that controls are in place to monitor and separate decision authorities related to key risks associated with Company's compensation and incentive plans.

The Board believes it has effective risk management and regulatory compliance relating to its compensation policies used in determining executive compensation. Risks related to compensation are taken into consideration as part of the general review and determination of executive compensation by the Board. Inappropriate and excessive risks by executives are mitigated by regular board meetings during which financial and other information of the Company are reviewed, and which information includes executive compensation. Interested directors declare their interest and abstain from voting on compensation matters. No risks have been identified arising from the Company's compensation policies and practices that are reasonably likely to have a material adverse effect on the Company.

The Company does not permit its NEOs or directors to purchase financial instruments, including, for greater certainty, prepaid variable forward contracts, equity swaps, collars or units of exchange funds that are designed to hedge or offset a decrease in market value of equity securities granted as compensation or held, directly or indirectly, by the NEO or director.

Performance Graph

The following graph compares the cumulative total shareholder return on \$100 invested in Shares of Fission with \$100 invested in the S&P/TSX Composite Index for the period beginning December 31, 2014 to December 31, 2019 (the Company's most recently completed financial year end), based on the closing price of the Shares on the last trading day of each year. All dollar amounts are reflected in Canadian dollars.

As discussed under "Executive Compensation - Compensation Discussion and Analysis", Fission's executive compensation consists of base salary and long-term incentives through the Stock Option Plan. The grant of stock options is intended to provide long term rewards to motivate and retain talented and

capable board members and executive management. Fission does not directly tie increases or decreases in the level of executive compensation year over year, if any, to the increases or decreases in the market performance of the shares. The value of any equity component of executive compensation, including stock options, will naturally fluctuate along with any fluctuations in the market performance of the shares.

From December 2014 to December 2019, shareholder return generally declined due to disruptions in the uranium market amidst persistent risk aversion sentiment. The Company has not performed in line with the S&P/TSX Composite Index in part due to these market conditions. The Board is satisfied that the compensation offered to the Company's NEOs is consistent with the Company's continued progress in building its business and is fair and reasonable, notwithstanding the trend in the Company's performance shown in the graph above.

Option-based awards

The level of stock options awarded to an NEO is determined by his position and his potential future contributions to the Company. The exercise price of stock options is determined by the Board but shall in no event be less than the closing market price for the Shares on the trading day prior to the date of grant of the option.

The Board and the Compensation Committee believe that in order to (i) assist the Company in attracting and retaining management and key employees and providing such employees and directors with incentive to continue in the service of the Company, (ii) create a greater commonality of interests between such employees and directors and the shareholders of the Company through incentive compensation based on the value of the Shares and (iii) where appropriate, provide such employees and directors an incentive to create or realize value for shareholders of the Company through potential partnership opportunities, the compensation of directors, executive officers and other key employees should include equity-based compensation that is at least competitive with peer companies. The Company's equity-based compensation currently is made in the form of stock options granted under the Stock Option Plan and a Directors Remuneration Plan (the "**DRP**") whereby a portion of director fees can be paid through the issuance of common shares in lieu of the payment of cash or other means of remuneration.

The Company makes grants of options under the Stock Option Plan on a prospective, going-forward basis. The options granted to executive officers and other key employees are typically granted by the Board, based on the recommendations of the Compensation Committee. In addition, grants of options are also made to non-management directors. In determining whether or not to make option grants, the Board and the Compensation Committee take into account previous and other awards of equity-based compensation to the grantees and others. In granting options both to executive officers and other key employees, as well as non-management directors, the Board, based on the recommendations of the Compensation Committee, decides the portion of the potential ownership of the Company to be transferred as compensation and then determines the number of the options to be granted.

Compensation Governance

The Compensation Committee is currently comprised of William Marsh (Chair) and Frank Estergaard all of whom are "independent" for the purposes of National Instrument 52-110 – *Audit Committees ("NI 52-110")*. The Board is satisfied that the composition of the Compensation Committee ensures an objective process for determining compensation. All members of the Compensation Committee have had significant experience in the mining sector, including the junior exploration sector and on other boards of directors.

The duties and responsibilities of the Compensation Committee are as follows:

- (a) determine the salary and benefits of the CEO and the President and COO;
- (b) review and approve corporate goals and objectives relevant to the CEO and the President and COO's compensation;

- (c) evaluate the CEO and the President and COO's performance in light of those corporate goals and objectives, and make recommendations to the Board with respect to the CEO and the President and COO's compensation level based on its evaluation;
- (d) review the recommendations to the Compensation Committee of the CEO, and the President and COO respecting the appointment, compensation and other terms of employment of the CFO, all senior management reporting directly to the CEO and all other officers appointed by the Board and, if advisable, approve and recommend for Board approval, with or without modifications, any such appointment, compensation and other terms of employment;
- (e) review executive compensation disclosure before the issuer publicly discloses this information;
- (f) recommend to the Board the remuneration (fees and/or retainer) to be paid to and the benefits to be provided to directors;
- (g) review and approve the disclosure in the Company's management information circular to shareholders respecting the process undertaken by the Compensation Committee in its review and preparing a recommendation in respect of the CEO, and the President and COO compensation; and
- (h) review and assess the adequacy of the Compensation Committee mandate at least annually to ensure compliance with any rules of regulations promulgated by any regulatory body and recommend to the Board for its approval any modifications to the Compensation Committee Mandate as considered.

The value has been calculated using the Black-Scholes model and is consistent with the fair value determined in accordance with *IFRS 2 Share Based Payment*. The amount disclosed in the table above represents the fair value of the vested and unvested portions of the options granted during the year. The estimated fair value recognized in the financial statements is amortized over the applicable vesting periods and may differ from the amounts reported in the table above. The estimated fair values disclosed above have not been, and may never be, realized by the NEOs. The actual future value recognized by the NEOs will depend on the value of the Shares on the TSX at the time of exercise.

The Black-Scholes option pricing model incorporates the following key assumptions dealing with risk free interest rate, expected stock price volatility, expected life and expected dividend yield:

- for options granted on January 16, 2017: a risk free interest rate of 0.84%; an expected life of 2.92 years; an annualized volatility of 51.34%; and a dividend rate of N/A.

- (a) any director or proposed director or executive officer of the Company;
- (b) any shareholder holding, directly or indirectly, more than 10% of the voting rights attached to all the shares of the Company; and
- (c) any associate or affiliate of any of the foregoing persons.

CORPORATE GOVERNANCE

Corporate governance relates to the activities of the Board, the members of which are elected by and are accountable to Fission's shareholders, and takes into account the role of the individual members of management who are appointed by the Board and who are charged with the day-to-day management of Fission. The Board is committed to sound corporate governance practices, which are both in the interest of its shareholders and contribute to effective and efficient decision making.

Pursuant to National Instrument 58-101 – *Disclosure of Corporate Governance Practices* ("**NI 58-101**"), Fission has reviewed existing guidelines in terms of NI 58-101 and hereby discloses its corporate governance practices in compliance with NI 58-101 as follows:

Board of Directors

Section 1.4 of NI 52-110 sets out the standard for director independence. Under Section 1.4 of NI 52-110, a director is independent if he or she has no direct or indirect material relationship with Fission. A material relationship is a relationship which could, in the view of the Board, be reasonably expected to interfere with the exercise of a director's independent judgment. Section 1.4 of NI 52-110 also sets out certain situations where a director will automatically be considered to have a material relationship with Fission. Applying the definition set out in Section 1.4 of NI 52-110, the following, being a majority of the members of the Board, are independent: Frank Estergaard, William Marsh, Deschao Chen, Shiming Ma, Darian Yip, and Robby Chang. Devinder Randhawa being the CEO and Ross McElroy being the President and COO are not independent. The lead director on the Board is William Marsh.

The Board has adopted a Board Mandate (the “**Mandate**”) in which it explicitly assumes responsibility for stewardship of the Company. Pursuant to the Mandate, the members of the Board have the duty to supervise the management of the business and affairs of the Company. The Board, directly and through its committees and the Chairman of the Board, shall provide direction to senior management, generally through the CEO and the President and COO, to pursue the best interests of the Company. A copy of the Mandate is attached hereto as Schedule “A”.

The Board as a whole has responsibility for developing Fission’s approach to: (i) strategic and financial planning and monitoring; (ii) risk management and verification of internal, financial, non-financial, and business control and management information systems; (iii) issues relating to compensation of directors, officers and employees; and (iv) corporate governance issues and matters relating to nomination of directors. Certain responsibilities are delegated to Fission’s committees, including the Compensation Committee, Audit Committee, Disclosure Committee, and NCGC as set out in each committee’s Board approved mandate.

The Board is responsible for approving long-term strategic plans and annual operating plans and budgets recommended by management. The Board’s consideration and approval is also required for material contracts, business transactions, and all debt and equity financing transactions. The Board delegates to management responsibility for meeting defined corporate objectives, implementing approved strategic and operating plans, carrying on Fission’s business in the ordinary course, managing Fission’s cash flow, evaluating new business opportunities, recruiting staff and complying with applicable regulatory requirements. The Board also looks to management to furnish recommendations respecting corporate objectives, long-term strategic plans and annual operating plans.

The Board currently consists of eight directors, two of whom are not independent. The size of the Board and the experience of each of the members of the Board facilitate the exercise of independent judgment in carrying out Board responsibilities. Each of the Audit Committee, NCGC, and Compensation Committees are comprised solely of independent directors, which the Board relies on for advice and recommendations.

The independent directors do not hold regularly scheduled meetings at which non-independent directors and members of management are not in attendance. The Board facilitates open and candid discussion among its independent directors through collective communication among its directors and management. As required, the Board is prepared to function independently of management by referring matters to independent committees and by holding *ad hoc* meetings without directors and management present.

The current Chairman, Mr. Devinder Randhawa, is not independent for the purposes of NI 52-110. As a result, the Company has appointed an independent director, William Marsh, as the lead director of the Company. The lead director assumes responsibility for providing leadership to enhance the effectiveness and independence of the Board. The lead director acts as the effective leader of the Board and ensures that the Board’s agenda will enable it to successfully carry out its duties.

Position Descriptions

The Board has developed a written position description for the CEO. Also, the Mandate and the mandates for the Audit Committee, Compensation Committee, NCGC and Disclosure Committee are set out in writing, detailing the responsibilities of the Board and each committee for governance oversight of the Company.

The Board has not developed a written position description for the Chairman and the chairs of each of the committees of the Board. Given the size of the Company, the Board does not feel that it is necessary at this time to formalize such position descriptions, as it is currently the Board's view that the general mandates of committees on which such directors may sit are sufficient to delineate the role and responsibilities of the chair of each committee. Additional guidance is provided through reference to industry norms, past practice and relying upon the provisions of the by-laws of the Company and the statutory and common law. The chair of each Board committee is required to ensure the committee meets regularly and performs the duties as set forth in the committee mandate, and reports to the Board on the activities of the committee. The Chairman is principally responsible for overseeing the operations and affairs of the Board.

Orientation and Continuing Education

Fission has not yet developed an official orientation or training program for new directors, and this has not, to date, been necessary as the directors of Fission are familiar with the role of a director of a publicly listed mineral resource company. However, going forward, new directors will be provided the opportunity to become familiar with Fission by meeting with the other directors and with officers and employees and consultants. Orientation activities will be tailored to the particular needs and experience of each director and the overall needs of the Board. Potential candidates will be provided with publicly available materials in order to acquaint themselves with Fission, including recent press releases, financial reports and other relevant materials.

The Board encourages each of the directors to stay current on developing corporate governance requirements through continuous improvement and education. Directors are routinely provided information and publications on developing regulatory issues.

Ethical Business Conduct

The Board has adopted a Code of Business Ethics and Conduct (the "**Code**"), effective June 26, 2015, applicable to all of its directors, officers, employees and consultants, including the CEO, the President and COO, the CFO and other persons performing financial reporting functions. The Code communicates to directors, officers, employees and consultants standards for business conduct in the use of Fission company time, resources and assets, and identifies and clarifies proper conduct in areas of potential conflict of interest. Each director, officer, employee and consultant will be provided with a copy of the Code and will be asked to sign an acknowledgement that the standards and principles of the Code will be maintained at all times on Fission business. The Code is designed to deter wrongdoing and promote: (a) honest and ethical conduct; (b) avoidance of conflicts of interest with the interests of the Company; (c) confidentiality of corporate information; (d) protection and proper use of corporate assets and opportunities; (e) compliance with applicable governmental laws, rules and regulations; (f) the prompt internal reporting of any violations of the Code; and (g) accountability for adherence to the Code. Violations from standards established in the Code, and specifically under internal accounting controls, are reported to the chair of Fission's Audit Committee and can be reported anonymously.

A copy of the Code may be obtained by contacting Fission and requesting a copy from its CFO by mail at the Company's address 700 - 1620 Dickson Ave., Kelowna, British Columbia V1Y 9Y2.

The Code provides guidance to directors, officers, employees and consultants on their ethical and legal responsibilities. The Company expects all directors, officers, employees and consultants worldwide to comply with the Code, and the Company is committed to taking prompt and consistent action against violations of the Code. Violation of the standards outlined in the Code may be grounds for disciplinary action up to and including termination of employment or other business relationships. Directors, officers,

employees and consultants who are aware of suspected misconduct, illegal activities, fraud, or abuse of the Company's assets or violations of the standards outlined in the Code are responsible for reporting such matters.

Pursuant to the Code, directors, officers, employees and consultants should not engage in any activity, practice or act which conflicts with the interests of the Company. If the Company determines that an employee's or consultant's outside work interferes with performance or the ability to meet the requirements of the Company, as they are modified from time to time, the employee or consultant may be asked to terminate the outside employment if he or she wishes to remain employed by the Company. To protect the interests of the employees, consultants and the Company, any such outside work or other activity that involves potential or apparent conflict of interest may be undertaken only after disclosure to the Company by the employee or consultant and review and approval by management.

Nomination of Directors

The NCGC, in consultation with the Chairman of the Board and the CEO, identifies recruits and recommends new candidates for election to the Board. The NCGC consists of three independent directors, William Marsh (Chair), Rob Chang and Frank Estergaard. In making its recommendations, the NCGC considers the competencies and skills that the Board considers to be necessary for the Board as a whole to possess, the competencies and skills that the Board considers each existing director to possess, and the competencies and skills each new nominee will bring to the boardroom. The NCGC also considers the amount of time and resources that nominees have available to fulfill their duties as a Board member.

The NCGC may also recommend for Board approval the removal of a director from the Board or from a Board committee if he or she is no longer qualified to serve as a director under applicable requirements or for any other reason the NCGC considers appropriate.

The NCGC develops and updates a long-term plan for the composition of the Board that takes into consideration the current strengths, competencies, skills and experience of the Board members, retirement dates and the strategic direction of the Company, and reports to the Board thereon at least annually.

The NCGC also undertakes on an annual basis an examination of the size of the Board, with a view to determining the impact of the number of directors, the effectiveness of the Board, and recommends to the Board, if necessary, a reduction or increase in the size of the Board.

The Board approves all director appointments.

Compensation

The Compensation Committee is responsible for determining and making recommendations to the Board with respect to all forms of compensation to be granted to the CEO and the President and COO of Fission. The Compensation Committee is responsible for recommending, monitoring and reviewing compensation programs for senior executives. The Compensation Committee is currently comprised of the following two directors: William Marsh (Chair) and Frank Estergaard, all of whom are independent.

The Compensation Committee evaluates the CEO and the President and COO's performance in light of corporate goals and objectives relevant to those individuals' compensation, and makes recommendations to the Board with respect to the CEO and the President and COO's compensation level based on its evaluation. The Compensation Committee reviews the recommendations to the committee by the CEO and the President and COO respecting the appointment, compensation and other terms of employment of senior management and, if advisable, approves and recommends for Board approval any such appointment, compensation and other terms of employment. In order to meet Fission's objectives, the Compensation Committee is guided by:

- providing executives with an equity-based incentive plan, namely a stock option plan;
- aligning executive compensation with company corporate objectives; and
- attracting and retaining highly qualified individuals in key positions.

For more information see "Executive Compensation".

Board of Directors Tenure

The Board has not adopted policies imposing an arbitrary term or retirement age limit in connection with individuals nominated for election as directors as it does not believe that such a limit is in the best interests of the Company at this time. The NCGC annually reviews the composition of the Board, including the age and tenure of individual directors. The Board strives to achieve a balance between the desirability to have a depth of experience from its members and the need for renewal and new perspectives. The NCGC has determined that the Board is highly effective and well composed and that no appreciable benefit would be derived from the introduction of term or retirement age limits at this time.

Board and Senior Management Diversity

The *Canadian Business Corporations Act* (the "CBCA") defines members of designated groups ("**Designated Group Members**") to mean women, Aboriginal peoples, persons with disabilities and members of visible minorities. The Board has not adopted a written policy or targets relating to the identification and nomination of Designated Group Members as directors or members of senior management, as it does not believe that it is necessary in the case of the Company to have such measures at this time. The Board is committed to nominating the best individuals to fulfill director roles and senior management positions. The Board believes that diversity is important to ensure that Board members and senior management provide the necessary range of perspectives, experience and expertise required to achieve effective stewardship and management. The Board recognizes that Designated Group Members contribute significantly to diversity and acknowledges the important role that Designated Group Members with appropriate and relevant skills and experience can play in contributing to diversity of perspective in the boardroom and in senior management roles.

Each year, the NCGC reviews the general and specific criteria applicable to candidates to be considered for nomination to the Board. The NCGC aims to maintain the composition of the Board in a way that provides the best mix of skill and experience to guide the Company's long-term strategy and ongoing business operations. Accordingly, in searches for new directors or members of senior management, the Board considers the level of Designated Group Member representation and diversity within its leadership ranks when considering making director or officer appointments and this is just one of several factors used in such search process.

The table below show the current number and proportion (expressed as a percentage) of Designated Group Members who hold positions on the board of directors and who are members of senior management:

	Directors		Senior Management	
	#	%	#	%
Women	0 of 8	0	0 of 4	0
Aboriginal Peoples	0 of 8	0	0 of 4	0
Persons with Disabilities	0 of 8	0	0 of 4	0
Members of Visible Minorities	5 of 8	62.5	2 of 4	50

The NCGC has determined to monitor developments in this area while reviewing Fission's own practices in order to adopt a policy that is meaningful for the Company.

Board Committees

The Board committees consist of the Compensation Committee (described above), the Disclosure Committee, NCGC (described above), and the Fission Audit Committee, comprised of Frank Estergaard (Chair), William Marsh (Lead Director), and Robby Chang. All of the Audit Committee members are "financial literate" (as defined in NI 52-110), meaning that they have ability to read and understand financial statements of the Company. The Audit Committee meets regularly with the CEO, the CFO and the independent auditors to review and enquire into matters affecting financial reporting, the system of internal accounting, financial and disclosure controls, and the independent auditors' procedures and audit plans. The Audit Committee recommends to the Board the accounting firm to be appointed as independent auditors.

Details regarding the Audit Committee and its mandate are disclosed in the Company's Audit Committee Charter, the text of which is included as **Schedule "A"** to the Company's Annual Information Form dated March 30, 2020 ("**AIF**"), a copy of which is available on SEDAR at www.sedar.com. Please refer to the section entitled "Audit Committee" in the Company's AIF for further information.

The Disclosure Committee is comprised of the following directors of the Company: Ross McElroy. The Disclosure Committee is responsible for overseeing that a reasonable investigation of the Company's information and developments is conducted on an ongoing basis for disclosure purposes (with the results of such investigation being reported to the Disclosure Committee), assessing such information and developments for materiality and determining if and when such material information requires public disclosure.

Assessments

It is the Board's mandate, in conjunction with the Compensation Committee, to assess the participation, contributions and effectiveness of the individual members of the Board on an annual basis. The Board, at least annually, will conduct assessments of the Board's effectiveness, the individual directors and reports from each committee representing its own effectiveness. The Board or the individual committee may review their respective mandate or charter and conduct reviews of applicable policies.
